Herbert Fleisch Workshop

Advancing Today's Research, Fostering Tomorrow's Leaders

16–18 March 2014
Brugge, Belgium

**3 Days Left to Submit Your Abstract and Register
Deadline: 30 November**

**Workshop attendance is limited to 150 attendees
IBMS Members and Member Society Members Receive
Discounted Registration Rates**

Students, postdocs, and early stage PI's are particularly encouraged to submit an abstract. All aspects of bone biology, basic and applied, are welcomed. The following sessions will be covered by six invited plenary speakers during the meeting :

- Osteo-anabolic research and osteoblast biology
- Mechanisms of skeletal diseases and translational research
- Skeletal development and growth
- Human and mouse genetics of skeletal diseases
- Mechano-biology of bone, fracture repair and skeletal regeneration
- Integrative physiology

There will be both oral and poster presentations at the meeting, with **much emphasis on discussion of posters, including active participation of the invited senior scientists** . People selected for oral presentation are therefore encouraged to also bring a poster about their work.

All are welcome as participants, with priority in programming given to young investigators.

ASM 2014 – Speakers/topics

Dear All

Many thanks for the many suggestions that were submitted for international speakers for the 2014 ANZBMS Annual Scientific Meeting in Queenstown. We are now working on the rest of the programme and would welcome suggestions for speakers from within Oz and NZ (not limited to ANZBMS members), and suggested topics or formats of presentation that you would like to see covered at the meeting. We would welcome suggestions for both clinical and basic speakers and topics.

If you have suggestions, please send them to Ian Reid (i.reid@auckland.ac.nz) by **8 December 2013**.

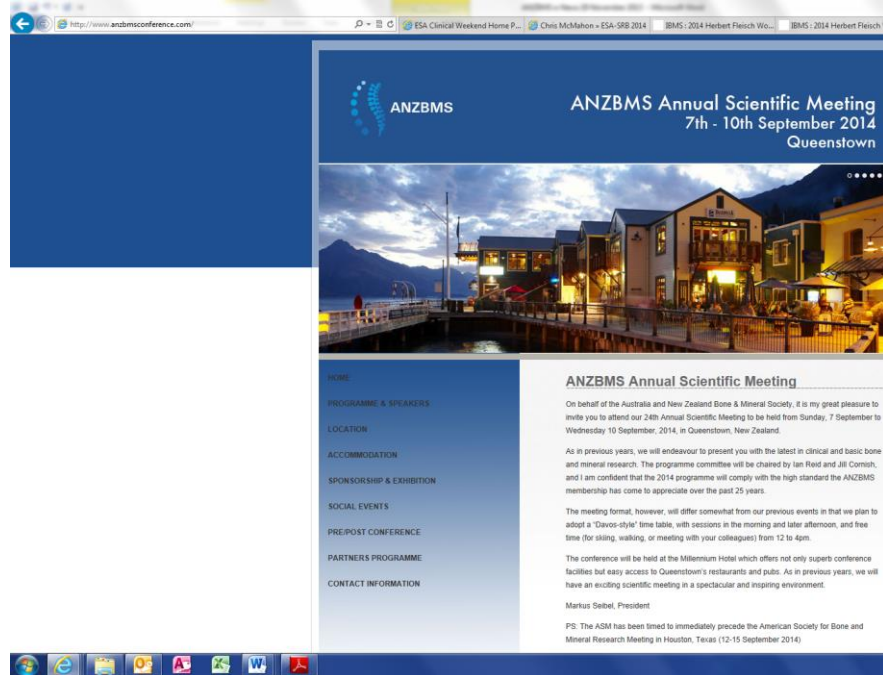

Many thanks

Ian Reid on behalf of the POC

The 24th Annual Meeting of the Australian and New Zealand Bone and Mineral Society

Sunday 7 September – Wednesday 10 September 2014
Millennium Hotel, Queenstown, New Zealand

Abstract and early-bird deadline 1 July 2014

ANZBMS future meetings:

November 2015: Hobart, Tasmania

November 2016: AHMRC, Sydney

25 – 28 March 2017: IBMS-ANZBMS Joint Meeting, Brisbane

Calendar

2-3 December 2013 2nd Annual Hip Fracture Management Conference, Melbourne

12-15 October 2014

CISM course on "Multiscale Mechanobiology of Bone Remodeling and Adaptation"

Dear Colleagues,

I would like to draw your attention to the CISM course on "Multiscale Mechanobiology of Bone Remodeling and Adaptation" that will be held next Summer in Udine, Italy, from June 23-27, 2014.

The course will gather experts from the fields of applied mechanics, bone biology, and material science, in order to give, in an unprecedented interdisciplinary fashion, the cutting-edge view on bone mechanobiology.

The course is addressed to graduate students, PhD candidates and early career researchers in the field of applied mathematics, biomedical engineering, physics, bone biology, bone tissue engineering and orthopaedics interested in a novel multidisciplinary approach to the mechanobiology of bone remodeling and adaptation with special emphasis on multiscale aspects.

I thus hope you will encourage your students to attend this course. Note that CISM is a non-profit organization, and that Udine offers reasonably priced accommodation, such that the costs should be reasonable.

More information about the topics, teachers and application can be found at:
[CISM course on Multiscale Mechanobiology of Bone Remodeling and Adaptation](#)

With best regards,

Peter
