Christine & T. Jack Martin Research Travel Grant

This grant is offered by the ANZBMS in memory of Christine Martin and to honour the outstanding and major scientific contributions of Professor T Jack Martin to bone and mineral research and his contributions to associates and trainees in teaching, research, and administration.

Apply: [HERE](#)

Extended to : 15 August 2016

Advanced Clinical Postgraduate Meeting in Bone Disease

The Advanced Clinical Postgraduate Meeting in Bone Disease was held at the Concord Hospital Medical Education Centre in Sydney on 18 June 2016.

With over 90 advanced trainees from diverse specialities participating, the meeting was well attended and provided opportunity for lively discussion. It is hoped that the ANZBMS Postgraduate Courses, which have been offered free of charge since 2008, contribute to a deeper understanding and better management of musculoskeletal disorders by the next generation of doctors.

[Know Your Bones](#), an Osteoporosis Australia and Garvan Institute of Medical Research Initiative

An Australian-first bone health self-assessment tool designed to help consumers understand their bone fracture risk, is now available to all adults, including the 7.5 million Australians living with brittle bones. The *Know Your Bones* online tool helps adults assess their likelihood of fractures, including those diagnosed with osteopenia and osteoporosis – two common bone conditions that, together with fractures, will cost the nation more than \$3 billion this year.

FIRST AUSTRALIA & NEW ZEALAND CONFERENCE ON SARCOPENIA AND FRAILITY

11-12 November 2016. Melbourne, Victoria

aimss
Australian Institute for Musculoskeletal Science

Western Health   

This This Conference is a shared initiative of the Australian Institute for Musculoskeletal Science (AIMSS), The University of Melbourne, Victoria University, and Western Health. During the two days of the Conference, we will be able to listen to the leaders in this field from Australia, New Zealand and overseas. In addition, we will be able establish new networks and collaborations with many colleagues sharing their interest in sarcopenia and frailty.
